Intermediate

YAML · GitLab CI/CD · GitHub Actions · Jenkins

Additional Tools

Master

Git · Jira · Confluence · graylog · Docker · Postman · Cypress · Playwright

WORK EXPERIENCE (4)

QA Engineer at BigID — **Dec 2021 - Aug 2022**

https://bigid.com

I joined as a QA Engineer to Connectors team but continued as a Software Engineer. I've worked at startup so I am use to wearing many hats. I worked according to Agile/Scrum technique with daily syncs. Our team followed to two-weeks sprints.

- Developed and fixed e2e tests on Cypress
- Wrote STP, STD and documentation in Confluence
- I did bugfixing and developed new features on React/TypeScript
- Developed tool for rebasing process in Git (daily routine) on Bash
- Worked with Jenkins/Blue Ocean/Allure

Test Engineer at Silicom Ltd. — **Jul 2019 - Dec 2021**

https://www.silicom-usa.com

This role is very multifaceted and involves interaction with hardware and software.

- Worked with a lot of bash scripts and writing new and rewriting old ones
- Analyzed new hardware stuff and preparing to implement QA testing
- Created ATPs and manuals
- Interacted with R&D engineers and worked along side with them
- Experience in writing scripts and test documents STD, STP, STR
- Familiarity with testing methodologies

Systems Analyst at Compulsory Medical Insurance Fund of Russia — **Jan 2017 - Aug 2018**

http://www.ffoms.ru

I was involved in supporting and developing the existing information system for planned hospitalization in St. Petersburg. In the project I used PostgreSQL, jQuery, Camunda BPMN. Initially I came to the position of System Analyst, but soon I moved to the development department as I saw a lot of defects.

- Analyzed the existing system of the hospitalization program
- Administrated PostgreSQL Databases and maintained server which one based on Debian OS
- Ensured the performance and fault tolerance of the information system with more than 7,500 users
- Implemented of new business processes
- Communicated with developers and wrote specifications
- Embedded JasperReports for Camunda BPMN

Systems Analyst at State Unitary Enterprise “St. Petersburg Information and Analytical Center” **Apr 2016 - Dec 2016**

https://iac.spb.ru

I was in the analytics department as a systems analyst. My task was to analyze existing business processes and prepare interface prototypes.

- Prototyped UI/UX for existing and future features using best practices and guidelines by Apple and Google
- Implemented his development of the transfer of old public services to a new portal of public services in St.-Petersburg
- Wrote and prepared technical documentation for the IDEF0 development department in the UML notation
